

WELDING TECHNOLOGY

Credentials

Welding Sculpture skills certificate	19 cr.
Fabrication certificate	35-36 cr.
Pre-Apprenticeship certificate	27 cr.
Fabrication Technology AAS degree	61-67 cr.

Major Description

Schoolcraft's welding program provides students with both hands-on welding skills and knowledge of metallurgy and other materials. The program offers three welding certificates in addition to an associate degree in applied science. Class sizes are limited so instructors can work closely with students to provide hands-on training and relay knowledge of analytical skills required by modern industrial technology.

- The welding fabrication certificate prepares students for jobs involving metal inert gas and tungsten inert gas welding, as well as providing knowledge of plasma, arc and oxy-gas cutting technologies.
- Schoolcraft's welding joining technology associate in applied science degree prepares students for a job in industrial, prototype and machine tool building, heavy equipment, construction and emerging green and sustainable technologies.
- The welding pre-apprenticeship certificate, through a partnership with local trade unions, will help ensure that students have the skills, knowledge and training necessary to be safe on the jobsite, competitive in the workplace and satisfied in their careers.
- The welding sculpture skills certificate helps professional sculptors and aspiring welders gain knowledge and skills applicable in today's art world and welding industry.

Welding Sculpture Skills Certificate

Schoolcraft program code # CRT.00327

The focus of both the welding industry and sculpture is fabrication. Because sculpture requires artists to use materials, tools and skills, it is natural for artists and the welding industry to merge. This welding sculpture skills certificate helps the professional sculptor or the aspiring welder gain the knowledge and skills needed in today's art world and welding industry.

Students learn basic and advanced skills in welding with the MIG and TIG welding processes as well as many fabrication techniques used in today's industry. They learn how to think and work creatively with these processes and how to conceptually and objectively discuss their work. New fabrication processes are explored to give the student an understanding of how alternative methods of fabrication satisfy different needs. This certificate creates an artistic option for entry into the welding fabrication certificate and the welding joining technology associate degree.

Students are required to purchase protective clothing, protective (safety) shoes and eye protection equipment.

Students who satisfactorily complete the program requirements qualify for a certificate of program completion. All program required courses must have been completed with a grade of 2.0 or better.

SAMPLE SCHEDULE OF COURSES

First Year—Spring Session

WELD 110	Introduction to Welding Basics for Fabrication	3
WELD 112	Contemporary Metal Sculpture 1	3
	Total Credits	6

First Year—Fall Semester

WELD 209	Contemporary Metal Sculpture 2	3
WELD 115	Gas Metal Arc Welding (G.M.A.W./M.I.G.)	3
	Total Credits	6

First Year—Winter Semester

WELD 119	Gas Tungsten Inert Arc Welding (G.T.A.W./T.I.G.)	3
WELD 208	Advanced Metal Sculpture	4
	Total Credits	7

PROGRAM TOTAL 19 CREDITS

Not all courses are offered each semester. Students should work with an academic advisor or counselor to develop a schedule that will work for them.

Students planning to transfer should check the transfer institution's requirements/guides or discuss their options with an academic advisor or counselor. Number of credits may vary depending on the course selection.

Welding: Fabrication Certificate

Schoolcraft program code # 1YC.00127

The welding fabrication program prepares students for employment under classifications such as welders and/or industrial fabrications. The program includes joining materials, using weldments, special techniques, equipment and other recognized fastening methods. Students acquire skills in the broad categories of welding and fabrication with added emphasis upon support technical subjects.

Students are required to purchase protective clothing, protective (safety) shoes and eye protection equipment.

Students who satisfactorily complete the program requirements qualify for a certificate of program completion.

Welding: Fabrication Certificate (continued)

SAMPLE SCHEDULE OF COURSES

First Year—Fall Semester

First Year—Winter Semester

WELD 110	Introduction to Welding Basics for Fabrication	3	Mathematics	<i>Select General Education Mathematics course</i>	3-4
WELD 113	Shielded Metal Arc Welding (S.M.A.W.)	3	MATH 102	Technical Mathematics (recommended)	
WELD 115	Gas Metal Arc Welding (G.M.A.W./M.I.G.)	3	WELD 120	Advanced Processes-Stick Electrode & M.I.G. Welding	3
WELD 119	Gas Tungsten Inert Arc Welding (G.T.A.W./T.I.G.)	3	WELD 130	Advanced Processes—Gas Tungsten	3
	Total Credits	12	MET 103	Introduction to Materials Science	3
				Total Credits	12-13

First Year—Spring Session

First Year—Summer Session

WELD 205	Welder's Print Reading	2	WELD 206	Welding Inspection & Qualification	2
Exam Preparation	<i>Select from list</i>	3	WELD 223	Fabrication	4
	Total Credits	5		Total Credits	6

PROGRAM TOTAL 35-36 CREDITS

Exam Preparation: (Select one)

WELD 210	Preparation for Welder Certification in Shielded Metal Arc Welding (S.M.A.W.)	3
WELD 211	Preparation for Welder Certification in Gas Metal Arc Welding (G.M.A.W./M.I.G.)	3
WELD 212	Preparation for Welder Certification in G.T.A.W./T.I.G)	3
WELD 214	Preparation for Welder Certification in Pipe Welding	3
WELD 225	Pre-Apprenticeship Welder Certification	3

Not all courses are offered each semester. Students should work with an academic advisor or counselor to develop a schedule that will work for them.

Students planning to transfer should check the transfer institution's requirements/guides or discuss their options with an academic advisor or counselor. Number of credits may vary depending on the course selection.

Welding: Pre-Apprenticeship Certificate

Schoolcraft program code # 1YC.00129

The road to becoming a welding Journeyman starts with apprenticeship training. Schoolcraft College accomplishes that mission by providing training, leadership, and partnership with local trade unions in order to uphold union values and the principles of service and professionalism. Coursework will prepare students for union apprenticeship by providing instruction in fundamental welding equipment and techniques, project planning, layout, fabrication, safety and technical math. Students completing the coursework successfully will also earn American Welding Society certification in at least one welding procedure. The pre-apprenticeship certificate will help ensure that students have the skills, knowledge, and training necessary to be safe on the jobsite, competitive in the workplace and satisfied in their careers. This certificate creates an option for entry into the welding fabrication certificate and the welding joining technology associate degree.

Students are required to purchase protective clothing, protective (safety) shoes and eye protection equipment.

Students who satisfactorily complete the program requirements qualify for a certificate of program completion.

SAMPLE SCHEDULE OF COURSES

First Year—Fall Semester

First Year—Winter Semester

WELD 110	Introduction to Welding Basics for Fabrication	3	WELD 120	Advanced Processes-Stick Electrode and M.I.G. Welding	3
WELD 113	Shielded Metal Arc Welding (S.M.A.W.)	3	WELD 205	Welder's Print Reading	2
WELD 115	Gas Metal Arc Welding (G.M.A.W./M.I.G.)	3	WELD 225	Pre-Apprenticeship Welder Certification	3
MATH 102	Technical Mathematics	4	OSH	<i>Select one</i>	2
	Total Credits	13	OSH 111	Occupational Safety & Health for General Industry	
			OSH 112	Occupational Safety & Health for Construction (recommended)	
				Total Credits	10

First Year—Spring Session

WELD 210	Preparation for Welder Certification in	3
----------	---	---

	Shielded Metal Arc Welding (S.M.A.W.)	
WELD 211	Preparation for Welder Certification in Gas Metal Arc Welding (G.M.A.W./M.I.G.)	3

PROGRAM TOTAL 27 CREDITS

Exams for above certificate will also be provided on an individual basis.

Not all courses are offered each semester. Students should work with an academic advisor or counselor to develop a schedule that will work for them.

Students planning to transfer should check the transfer institution's requirements/guides or discuss their options with an academic advisor or counselor. Number of credits may vary depending on the course selection.

Welding: Fabrication Technology AAS Degree

Schoolcraft program code # AAS.00082

There is an ever increasing need for persons today that possess skills, both in welding and metallurgy. Materials of industry and new technology require highly skilled persons that understand material sciences, metallurgy, and the joining processes used to produce optimum quality fabrications. The quality conscience industry of today demands certified people that can perform tasks from the simplest, to more complex technical applications. The courses selected in this program will give the student the required skills needed to perform, both hands on and analytical tasks required by modern industrial technology.

Students are required to purchase protective clothing, protective (safety) shoes and eye protection equipment.

Students who satisfactorily complete the program requirements qualify for a certificate of program completion.

SAMPLE SCHEDULE OF COURSES

First Year—Fall Semester

First Year—Winter Semester

ENG 100	Communication Skills	3	ENG 116	Technical Writing	3
MET 103	Introduction to Materials Science	3	Mathematics	<i>Select General Education Mathematics course</i>	3-4
WELD 110	Introduction to Welding Basics for Fabrication	3		MATH 102 Technical Mathematics (recommended)	
WELD 113	Shielded Metal Arc Welding (S.M.A.W.)	3	WELD 119	Gas Tungsten Inert Arc Welding (G.T.A.W./T.I.G.)	3
