Have you ever wondered how architects design buildings or how engineers design roller coasters? Wonder no more! Design and build your own roller coaster; construct your own balsa wood bridge to withstand weight; create and erect your own tower; and shape and fabricate your own airplane. Roll-up your sleeves and get ready to make it work!

This camp is for those children entering grades 5 or 6.

CES 8365 / Sec. 939850
$225
1 week (M-F) July 18th from 9am-3pm
Location: F100
Instructor: R. Roberts

Please bring a bag lunch to camp each day
